

Course description:

Course name: Servicing course in mechanics and hydraulics
for CNC multi-spindle machine MS52 with Siemens Solutionline

Course no.: 199

Participants: Maintenance personnel

Training goal:

- Basic maintenance work
-

Course content:

- Functions to ensure occupational safety
 - Maintenance instructions of the machine
 - Mechanical system
 - Structure and working principle of the Machine
 - Axis drives
 - Assembly and replacement, support arm, motor, ball screw, lubrication
 - Cross slide
 - Setup and replacement, adjustment of jib play after a collision
 - Setting geometry, center height and synchronized spindle after a collision
 - Measuring and adjusting ball screw backlash
 - Measuring and adjusting reference points
 - Bar clamping
 - Setting base body, removal, cleaning and care, replacement of clamping cylinder
 - Hydraulic system
 - Interaction between hydraulics, pneumatics, cooling circuit, electrics, sensors
 - Hydraulic system
 - System pressure, hydrostatic, central lubrication, monitoring, filter replacement
 - Auxiliary units
 - Bar loading magazine
 - Chip removal
 - Cutting oil cleaning system
-

Participation requirements:

- Practical experience in servicing/maintenance.
 - **Safety shoes must be brought along and worn during the entire course.**
-

Course duration:

3 days - Monday (9:00 am) to Wednesday (4:00 pm)

Course location:

INDEX-Werke GmbH & Co. KG
Hahn & Tessky

Deizisau Plant
Plochingerstr. 44
(Access opposite Keplerstr. 8)
73779 Deizisau, Germany
